Special to the Gazette. NEW ORLEANS, La., Nov. 25 .- Atwood, which closed firm at an advance from yes-terday, caused an improvement here of 10 points at opening. It was however soon lost, declining to last night's prices and afterward fluctuating 2 oon tost, declining to last right's prices and afterward fluctuating 2 or 3 points either way all day. We close points better than yesterday on spring months, and 1 to 2 points lower on lear positions. There has been a iquidation of the long interest in December to-day by issuing sotices for about 5000 bales, forcing December to the long interest and the second street of the long interest and the second s ber at one time 27 points below January and 10 points below middling. To-morrow being a holiday both here d in New York, there has on a great deal of covering lones and shorts. What the market by longs and shorts. What the market may do on Friday will as usual depend upon what Liverpool does to morrow. We rather look for a lower Liverpool where they are watching the movement on this side very closely. The falling off in receipts is not very ap-parent at the ports to-day, being on in receipts is not very ap-parent at the ports to-day, being 45,000 bales against 35,000 bales hast year. Receipts here to-morrow are estimated at 11,000 bales as against 45,600 bales at all ports last year. The thirteen towns re-ported semi-week'y here show receipts of 600 bales exceeding last year for the same time, and 10,000 bales smaller than the ime, and 10,000 bales smaller than the sen last week, but stocks show an iner 17,000 bales over last week, which at thi rate will show a total increase at interior owns for the week of 45,000 to 40,000 bales. e have a telegram to-day from Fort ith, Ark., saying that the stock there is 18.00 bales, against 5500 bales hast year, find that the smaller towns in that vicinity show a larger proportion than this over last year. Notices for about 7000 bales were issued in New York to-day.

New York, Nov. 25,—The stock market to-day was intensely dull throughout, as is usual on a day preceding a holiday, and active stocks fluctuated over an exceedingly arrow range, with no feature of any kind to relieve the monotony. Early dealings were rendered animated by the execution of orders accumulated during the period of interrupted telegraphic communication, but these were not important and failed to make any marked move-ment in the list. The opening was firm and almost all the leading scored fractional gains in the first hour, but coal stocks were lag-gards, and late developed considerable weakness, which had the effect of securing a pressure on the rest of the list. Grangers, showed some animation, but only in the forenoon, after which their prices were left at about opening figures. The only features of the day were some of the indus-trials. Distillers were especially weak and tell away from 58 to 57%. All these changes were modified in late trading, however, and no stock in the whole market scored a material change, all losses or gains being for fractional amounts only. The afternoon fractional amounts only. intensely dull and the market finally actual and steady, generally at a de-e from last night's figures.

Government bonds have been dull but State bonds have been dull and steady. Railroad bonds were more animated than hares, but there were the same narrow furthering and no special feature, except officity in Reading firsts.

CHICAGO, ILL., Nov. 25.—The news affecting the price of wheat was generally bearism. December opened at \$25,62.25 against \$25,62 at the close yesterday and remained quiet and steady for a time; then under fair demand from the shorts to realize profits the market grew firm and advanced to \$25,6 only to fall leads again on large offerings. During the last hour however there was a rally to \$25,6 and the close was nearly at the top at \$25,5.

Strength in November corn continued. These was very little to be had and the price was advanced from \$25 to 75c with very limited transactions. A reaction followed to 75c, and another bulge carried the price to 75c when it closed.
